Making family memories...

## The picnic

---

### *Whole family*

**\$550**

The images are for you and I want you to have them. The price covers the preparation, the shoot, the editing and you get to keep all of the images with no strings attached.

**Preparation** - Tell me about your family, lets plan a photoshoot that is right for you and your loved ones. We could go to the beach, shoot in your backyard or have a picnic in the park. If liquid courage is what you need, that's an option. We will plan out your outfits before the day.

**The Shoot** - Magic hour is the secret to great photos - either the first hour or last hour of light. Though if this is grizzle o'clock for your little one, it may not be a good idea. We will plan what is going to work best for you and I will do a location scout before the shoot so we are ready to go. There is no limit to how many people can come along, if Nan or your pet are part or your inner family circle you can bring them along. Please keep in mind that if there are too many people that kids can get overwhelmed and distracted. The shoot will take 1 - 2 hours and outdoor shoots are weather dependant so may need to be re-scheduled.

**Images** - You will receive colour graded, edited images in both high resolution for printing and low resolution for online. I will post a preview on Facebook, though if you prefer that your photos are not posted online just let me know, that's not a problem.

Prints are optional extras - see page 4.

## The diorama

---

### *Sitting age*

**\$950**

With a custom made set tailored to our little person, the diorama package is about creating the perfect moment to forge that lifetime memory.

**Preparation** - This is not a one size fits all photoshoot, it starts with a questionnaire. I want to know what your bubs favourite food is? Do they like a particular story? Does glitter appeal to them? What does their room look like? Their personality traits? What makes them smile? Their favourite outfits? We will mood board and custom make a baby sized diorama just for them.

**The Shoot** - We will create a home studio at either my house or yours, we need time to set up and we will wait until your bub is in happy to capture the shots..

**Images** - I am not going to hold back on the high resolution files, the images are for you! You will receive colour graded, edited images to print off as many times as you like. Retouching is included.

Prints are optional extras - see page 4.

## For the wall
